

HAPPY  
NEW  
YEAR

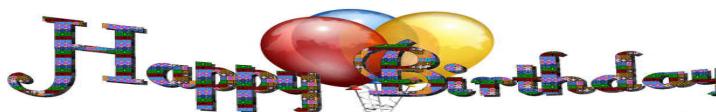

# Chatfield EMS News

January 2015

The First meeting of 2015 will be Employee Right to Know and Medication skills evaluation. Training will be Thursday January 8<sup>th</sup> at 7PM.

As most of you know Mary Peterson resigned as Deputy Clerk after 18 years with the city. The end of January Nancy will be stepping into that position. The city is advertising for a new EMS Support person. Job description can be seen on the city web site, or I can send you one if you wish. Applications can be picked up at city hall. Applications are being accepted until January 8<sup>th</sup>.

Interviews will then be done and hopefully someone can fill that position by the end of January. One thing for sure is all aspects of EMS are about change.

January Birthday wishes to:

Leslie Tannahill 1/1      Shane Fox 1/9  
Steve Schmiedeberg 1/11    Beth Schmidt 1/24

Chill Fest January 24<sup>th</sup>

Many events throughout the day. The HON organization is having a Community Health Fair from 10-2. The On call crew and volunteers with 471-B will stand by for the polar plunge at 2PM Stand by for more information to come.

Chatfield EMS Training EMT Transitional Refresher: The Textbooks and student packets are ready to be picked up. Classes are Monday/ Wednesday as requested by the majority of you refreshing. Sessions begin January 7<sup>th</sup>. Please let me know if I am missing anyone: Rocky Burnett, Leif Erickson, Shane Fox, Dan Jaquith, Dawn Lubahn, Karla Mullenbach, Vicky Sample, Beth Schmidt, Steve Schmiedeberg, Dave Sovinski, Leslie Tannahill, Nancy Timm, Jess Wodele, and Tyler Maas. There will be a couple of other folk's joining this class. I promise to try and make it as painless as possible. From my perspective, any one of you could teach the class as well or better than me. Teaching our own is the most intimidating and challenging to teach.

## QUARTERLY CASE REVIEWS

January 20, 2015 Joseph Main 59 at Saint Marys Hospital. Thank you all for your patience during all of the work and remodeling of Saint Marys. Some days it seems even they don't know where to put patients.

As I write this toward the end of December we have only had 296 calls so far this year. I believe we will break 300; but it has been far less busy than the recent past. I do wish each of you and yours a very special, healthy and prosperous New Year. I can't say thank you enough for your service.
